

## Quassia Tincture - Material Safety Data Sheet

| 1.  | Information about the product  | An extract of Picraenia excelsa infused in a mixture of ethanol and water   |
|-----|--------------------------------|---|
| 2.  | Product Code                   | 23QU  |
| 3.  | Composition                    | Water, Ethanol, Quassia Chips   |
| 4.  | Flavour and Odour              | Characteristic and faint  |
| 5.  | Appearance                     | Greenish Brown Liquid   |
| 6.  | Information about the supplier | JustIngredients Ltd,<br>Units 2-3a Tabernacle Road,<br>Wotton-Under-Edge,<br>Gloucestershire<br>GL12 7EF<br>Telephone: 01291 635525<br>E-mail: technical@justingredients.co.uk  |
| 7.  | Hazard identification          | Flammable liquid.<br>Harmful if ingested and enters air ways.<br>Harmful in contact with skin.<br>Harmful in contact with eyes.<br>Harmful to aquatic life with long lasting effects.   |
| 8.  | First aid measure              | IF SWALLOWED REPORT TO DOCTOR IMMEDIATELY. Do not<br>induce vomiting.<br>In case of inhalation - Remove from exposure site to fresh<br>air, keep at rest, and obtain medical attention.<br>In case of skin contact – Remove/take off immediately all<br>contaminated clothing. Wash with soap and water.<br>In case of contact with eyes – Rinse cautiously with water for<br>several minutes. Remove contact lenses, if present and easy<br>to do. Continue rinsing. |
| 9.  | Firefighting measures          | PRODUCT IS FLAMMABLE LIQUID<br>Normal firefighting precautions. Use of conventional<br>extinguishers i.e. foam, CO2 and Dry chemical powder.<br>Do not use water.   |
| 10. | Accidental release measures    | Provide adequate ventilation and avoid inhalation.<br>Avoid contact with skin and eyes.<br>Keep away from drains, surface and ground water  |

|  | Remove ignition sources. Contain spillage immediately by<br>use of sand or inert powder and remove to waste container.<br>Dispose of according to local regulations.<br>Clean area with water.  |
|--|---|
| 11. Handling and storage                   | Keep containers out of direct sunlight, heat, sparks, open<br>flames and hot surfaces. Keep in cool dry conditions at a<br>temperature not exceeding 25°C.<br>Keep tightly closed in the original containers or in plastic or<br>plastic-coated containers. Limit oxygenation (contact with<br>air).<br>Use in areas with good ventilation.<br>Do not eat, drink or smoke when handling this product. |
| 12. Exposure controls/ personal protection | Ensure good ventilation of the work situation.<br>Normal work hygiene practices.<br>Wear Mask and gloves when handling.   |
| 13. Stability and reactivity               | The product is stable. Presents no significant reactivity<br>hazard, by itself or in contact with water.<br>Avoid contact with strong acids, alkalis or oxidising agents.<br>Do not expose to direct heat.  |
| 14. Toxicological information              | Routes of entry – inhalation, ingestion and skin contact. This substance is nontoxic under normal conditions and is not classified in EEC listing.  |
| 15. Ecological information                 | Low degradability. Harmful to aquatic life with long lasting effects.   |
| 16. Disposal considerations                | Dispose of in accordance with local regulations. Avoid<br>disposing into drainage systems and into the environment.<br>Empty containers should be taken to an approved waste<br>handling site for recycling or disposal.  |
| 17. Transport information                  | By road, rail, ship, air in clean and sound condition and full<br>covered or airtight containers to protect from moisture,<br>insects, and rodents. Can cause taint but not classified as<br>dangerous so no hazard label required. Ensure materials are<br>securely stacked.<br>This is an environmentally hazardous substance.  |
| 18. Regulatory information                 | None known  |
| 19. Other information                      | Complies with REACH guidance for SDS as circulated by ECHA 2011.  |
